Mr. Dicken's Chickens.

Mr. Samuel B. Dicken, late of Memphis, is the first farmer to establish a poultry business on a large scale in this county. He has had much experience with breeding fine chickens and when he recently moved to this city and took up his residence on the Shipp place, in the western suburbs, he at once determined to engage in breeding fowls of the best strains. Mr. Dicken was so fortunate as to find a well-stocked poultry yard near Memphis for sale and bought the entire outfit, and has since reinforced his pens with some of the finest fowls that money could buy. He now has eight varieties of chickens and the finest Bronze turkeys. The male bird at the head of his pen of turkeys was bought at the cost of \$50 and is beyond doubt the largest turkey ever seen in this county.

His pen of Barred Plymouth Rocks is headed by a premium cock purchased from J. H. Thompson, the taker of the first prize at the great New York poultry show this spring.

His Light Brahmas are also headed by a splendid cock bought at a fancy price. This pen is one of his favorites and his birds are certainly beautiful.

Next in importance are the Leghorns, Brown and White. These great egg producers are carefully managed and the pens contain some prize-winning fowls.

The other varieties are Buff Cochins, Partridge Cochins, Houdans and Bantams. The Cochins belong to the great Asiatic family and are splendid specimens of these popular breeds, although the pens' this season contain only a limited number.

The Houdans are beautiful speckled birds with great top-knots, making them exceedingly showy. They are considered one of the very best table fowls.

Mr. Dicken's pens are most favorably located. They are shaded by fruit trees and both grass and gravel ranges are provided and every care will be taken to produce the most favorable results.

In addition to those breeds Mr. Dicken has ordered eggs from the best strains of Longshans and the popular new breed, the Indian Games. The yards are not open for business in eggs this spring. Mr. Dicken will hatch all his eggs this season and make arrangements to do a big business in the fall and another year. He has now on hand about 300 fowls, but only the best birds are penned for breeding purposes and many of the hens have been turned into a large yard and are kept solely for the eggs they lay.

The most interesting feature of the establishment is the incubator for hatching the young chicks. It is a Prairie State, the largest and best make, which has taken premiums in about thirty-five exhibitions. Its average capacity is about 275 eggs, and it is now filled with eggs that will turn out chickens this week, which will be the first incubator-hatched chickens that ever broke a shell in Christian county. The incubator is provided with a tester to examine the eggs and on the fifth day all infertile eggs are carefully removed and used. It is a fact not generally known that an egg will not "spoil" unless it has a chicken in it and that eggs that are not fertilized can be used even after a hen has sat upon them for a week or two.

The KENTUCKIAN is glad to note the

establishment of this enterprise in our midst. The poultry business has become one of the rapidly growing and most profitable industries of the country, and there is no reason why there should not be such a first-class poultry yard in this county.

To Nervous Debilitated Men.

If you will send us your address, we will mail you our illustrated pamphlet explaining all about Dr. Dye's Celebrated Electro-Voltaic Belt and Appliances, and their charming effects upon the nervous debilitated system, and how they will quickly restore you to vigor and manhood. Pamphlet free. If you are thus afflicted, we will send you a Belt and Appliances on a trial.

VOLTAIC BELT CO., Marshall, Mich.

Peterson for June is unusually rich with excellent illustrations. "Her Seventh Birthday," "A June Twilight" and "His Mother's Message," are all charming and totally unlike in subject and treatment. The opening story "Frank Raymond's Faith," is capital. The mammoth fashion plate, with other illustrations of Summer dresses, and the needlework designs cannot fail to interest the ladies. Miss Ella Higginson's novel "A Love and a Passion," is full of interest and power, and Miss Alice Bowman's "Story of Dagmar" is a splendid piece of fiction. "When Did Uncle Philbrooke Die," is as original as it is interesting. "Some Hardy Plants," by Joyce Ray will be welcome and useful to every possessor of a garden, and Miss Scott's paper on "Asphyxia" is exceedingly useful. The July number begins a new volume, and the list of contents give promise of great brilliancy. Terms, Two dollars a year. One dollar for six months. Sample copy, five cents. Address Peterson's Magazine, Philadelphia.

Drunkennes—Liquor Habit—In all the World there is but One Cure, Dr. Haines' Golden Specific.

It can be taken in a cup of tea or coffee without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been cured who have taken the Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. No harmful effect results from its administration. Cures guaranteed. Send for circular and full particulars. Address in confidence, GOLDEN SPECIFIC CO., 185 Race Street, Cincinnati, Ohio.

Last month we visited Washington through the pages of *Demorest Family Magazine*, and enjoyed the very interesting views of the exterior of the White House and its surroundings. This month, in the June number of this popular Magazine (which has just arrived), we enter the Executive Mansion, and are treated to a ramble through its corridors, its executive and private apartments. We thus participate in the special favor shown to *Demorest's Magazine*, as we are introduced to many features not usually seen by the general public.

The White House has never before been so fully and beautifully illustrated. This number also contains the picture of four of "mother's darlings," "Out for an Airing," which is a superb water-color, equal in design and execution to those selling for a high price at the art stores; "Athletics for Women" is also finely illustrated; and "The Lady Tramp" will no doubt start many of "Our Girls" off on that beautiful excursion, for it tells them just what to do and what to wear when doing it. All the other departments are full of overflowing with entertaining and helpful matter, and the stories are particularly good. A remarkable 20 cents worth, surely. Published by W. Jennings Demorest, 15 East 14th St., New York.

THE FIRST SYMPTOMS OF DEATH.

Tired feeling, dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidence of poisoned blood. Dr. Acker's English Blood Elixir has never failed to remove scurfiness or syphilitic poisons. Sold under a positive guarantee.

DO NOT SUFFER ANY LONGER.

Knowing that a cough can be checked in a day, and the first stages of consumption broken in a week, we hereby guarantee Dr. Acker's English Cough Remedy, and will refund the money to all who buy, take it as per directions, and do not find our statement correct.

OAK GROVE.

OAK GROVE, May 14.—I think the following lines by "Lowell" are so far very appropriate to the present month:

"May is a pious fraud of the Almanac,
"A ghastly parody of real spring
"And breathed with eastern winds."
I made a slight alteration in the last two lines to better suit the occasion.

The wet-weather ponds are fast disappearing, which will enable many farmers to finish planting corn. The early planting is coming up but worms are cutting it in some places.

Tobacco planting has begun, but on a small scale as yet, as plants are too small for a general planting.

Wheat looks worse than I ever saw for the season, and if we make 50 per cent. of a crop it will be a large yield from the present prospect.

Early vegetables will soon take the place of the inevitable jole and greens. I can assure you that they will be highly appreciated by ye correspondent, as she is particularly fond of good living.

Old Salem church is without a pastor, the present one, Rev. S. P. Forgy, having resigned and accepted a call from Zion, near Henderson.

THAT TERRIBLE COUGH.

In the morning, hurried or difficult breathing, raising phlegm, tightness in the chest, quivering pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption. Dr. Acker's English Cough Remedy will cure these fearful symptoms, and is sold under positive guarantee by H. B. GARNER, Druggist.

OUR VERY BEST PEOPLE

Confirm our statement when we say that Dr. Acker's English Remedy is in every way superior to any and all other preparations for the Throat and Lungs. In Whooping Cough and Croup it is a magic and relieves at once. We offer you a sample bottle free. Remember, this Remedy is sold on a positive guarantee.

H. B. GARNER, Druggist.

Frederick Arthur Bridgman, the Orientalist painter, is characterized by Mrs. Schuyler Van Rensselaer, by Frank Leslie's Popular Monthly for June, as a typical American artist, because in art, "just now, it is the cosmopolitan who is typical, the thorough-paced American who is exceptional."

Some admirable engravings and facsimiles of Mr. Bridgman's pictures are given. Another notable attraction of this number is a "profile of history" the Bowery of New York city, by Felix Oldley, the well-known local historian, who seemed to have inherited Irving's charm of style and fund of Gotham lore. Other interesting illustrated articles are: "The Life of a Longshoreman," Dr. Guernsey's concluding paper on "Proletariat the Great," "Women Wearers of Men's Clothes," "A Mysterious and Dreaded Saurian" (The Gila Monster), "The Last of the Mohicans," and "Traveling by Air." The short stories, poems, literary and other miscellany, supplied in abundance which is characteristic of this magazine, make up an uncommonly rich number.

The Republican Dilemma.

Senator Carlisle in May Forum.

The Republican party came into power burdened with obligations which it finds itself unable to discharge, and the most difficult problem it now has to solve, is how to reward its friends and pay even a small part of its political debts without ruining the country. When out of power it promised anything to everybody; but there is not money enough to go around, and as no one is willing to be left out of the distribution or even to reduce his claim, the situation has become quite serious. It has promised the taxpayers that it would reduce taxation, and it has promised the soldiers and the subsidy-hunters that it would increase the expenditures. It cannot do both, and it dare not refuse to do either. It has promised the friends of silver that it would help them to remove the restrictions now imposed by law upon the coinage of silver, and it has promised the advocates of the gold standard that it would do nothing to depreciate the value or interfere with the stability of our currency. In a vain effort to keep both of these pledges, it proposes to convert the Treasury Department into a warehouse for the storage of silver bullion, and to issue receipts to be used as money. This is the only new financial policy it has so far developed, but its resources are not yet exhausted, and if the demands of the discontented become sufficiently strong, we may have paper promises to pay issued upon deposits of wheat and corn, or upon farm mortgages. The plundered and impoverished farmer that his claim upon the bounty of the government is not as just as the claims of the prosperous owner of silver mines or the wealthy owner of ships.

Bull's Sarsaparilla has entirely cured me of rheumatism, from which I suffered for three long years. I have now been free from pain for several months and I have no doubt the cure is permanent.—Isham Bridges, Uniontown, Ky.

"That was an arrow escape," said the ranger, as the shaft from an Indian's bow whistled past his ear.—Plunder.

A lady said she had hard work to get her druggist to keep Dr. Bull's Worm destroyers, as he was anxious to sell another kind. But she made him get them for her. Go, mother, and do likewise.

Robert Louis Stevenson writes to Robert Bonner's Sons from Sidney, New South Wales, that he is greatly improved, that he is in good writing condition, and that he is at work on his history of the New York Ledger, which he hopes to complete within a reasonable time. Mr. Stevenson likes the story very much himself, and has become deeply interested in the fascinating plot which he is weaving. He says: "It has something of a Monte Christo flavor, being the tale of an abominable crime and a singular vengeance. I have great hopes of the tale; the incidents are strange and so are the characters." This has the true Stevenson flavor, and smacks of "Hyde and Jekyll." The public will await the appearance of this story with eagerness and great expectations.

Congressman John Allen, of Mississippi, in a speech in the House, referring to the great rush to the departments to get office said: Meeting a Republican, he asked him what he thought of it. The reply was: "Wagon runs a Sunday-School! Levi runs the White House, and, damn it, here we are!"

CREAM OF NEWS.

A Small Fire.
Last Monday night Max Myers' slaughterhouse, near Wood's Mill, was burned. The fire was the work of an incendiary. Ed Buckner, col., has been arrested and placed in jail charged with having set fire to the building. His trial will come up Monday.

Lost a Foot.
D. Vaughan, a brakeman, fell from a coal car at Baker's Station, Tenn., Tuesday, and was run over by the cars. His right foot was horribly crushed and had to be amputated. One rib was broken and there were other internal injuries. Vaughan's home is at Sebree, where he was taken yesterday.

Antem With a Point.
Andrew Almy, the shoemaker, now a man getting along towards middle age, swallowed a needle when a small boy. Some weeks ago the needle made its appearance in his arm and has been giving him great pain ever since, until last Wednesday when it was removed to his great relief.

Drowned in a Cistern.
A 6-year-old child of Lewis Campbell, col., fell in a cistern near Leucost Grove Wednesday and was drowned. The child had been missing several minutes before it was found and was quite dead. She had just taken a drink of water from a barrel near the cistern and the supposition is that she stumbled and fell backward in the cistern, which was uncovered.

The Levy Fixed.
The City Council has fixed the tax levy for 1890 at the same figures as heretofore—\$1.65 for all purposes. The city assessor has finished his work and the supervisors met on the 18th and 19th insts. to hear complaints and adjust inequalities. The books were then returned to the assessor, who will make the footings this week. The assessment will show an increase in both property and taxes. Not a big increase but enough to show that we are not progressing backwards by any means.

Dropped Dead.
George Withers, a very old colored man, who has been a familiar figure about town for a long time, dropped dead at the residence of Henry Norman, his son-in-law, in the Fifth ward, Tuesday morning. He has made a business of cutting grass in yards about town and few people will fail to recall the old fellow and his scythe. He was sitting in a chair when he tumbled to the floor and was picked up dead. The coroner held an inquest and a verdict of heart disease was rendered.

Getting Ready For The Census.
Census Supervisor Chambers has forwarded to Washington his lists of enumerators for the various counties. Christian is divided into 26 districts and there will be 26 enumerators. Hopkinsville is put into four districts divided on the lines of the four voting districts, extending only to the city limits. The magisterial district outside of the city is divided by the Clarksville and Madisonville roads into two districts. The enumerators are all to begin work on June 2 and finish in two weeks.

A list of the men for this county could not be obtained, but it includes six or eight colored men.

In our last issue we stated that the third and fourth weeks of the Common Pleas Court would be devoted exclusively to equity cases. This was an error. Juries were summoned Monday and the regular order of business is being carried out.

T. E. Lawson has secured two more pensions for parties in Hopkinsville. Mrs. Cornelia Mayes, widow of Henry Mayes, gets \$2,306.07 arrears and \$12 per month in the future. Polk Camsher has been allowed \$6 a month from June 1889, under the invalid claim law.

A Hopkins county correspondent says: "Encouraged by the late decisions of the Supreme Court on the original package question and being born with a desire to violate our laws, certain parties are preparing to be shipped to our county from another State, liquors to be sold in violation of the Prohibition law."

Bob Lander, Hopkinsville's colored orator, is stumping Logan county this week for prohibition. The "Wet or Dry" question will be voted on to-morrow and the campaign is at a white heat. The local paper, the Russellville Herald, is straddling the question and no intimation of the probable result is given to the outside world.

The Registration books and certificate blanks have been delivered to the County Clerk for use on June 6. Much complaint is heard in some sections in regard to the illiteracy and incompetency of some of the colored Clerks appointed by the Republican county Clerk. At many voting places the Republican officers are all colored, because there are no white Republicans in the districts.

The annual Grange Sale at Church Hill to-day will not be so largely attended as former ones, owing to the invitation plan adopted for feeding the crowd. Heretofore the Grange has been imposed upon by a hungry mob without manners or a sense of propriety and the free dinners became too much of a burden to be kept up longer. Nevertheless a good crowd will be on hand and Editor Givens will make a political speech.

Crabtree coal mines, near Earlington, are all agog over the murder of a child eight years old, alleged to have been recently committed by its father, a man named Stokes, and its step-mother. It seems that the child had been severely beaten previous to the murder, and that upon one occasion Stokes had been heartless enough to hang it up with a rope until life was almost extinct. There is a doubt as to whether the law will be allowed to have its course, and the feeling is strong that both the man and woman will be lynched. The trial is set for to-morrow.

DEATHS.

Mrs. Francis Cotton died near Renshaw's store, ten miles north of the city, Tuesday, at the advanced age of ninety-eight years. Death was the result of old age.

Everybody Knows.

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other disease may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar" is true.

Examination of Teachers.

The examination of applicants for positions of teacher in the Hopkinsville Public Schools will be held on Friday and Saturday, June 6 and 7, 1890, in the building of said school, commencing at 8:30 o'clock each day.

By order of the Board.

J. D. RUSSELL, Sec.

Thin and impure blood is made rich and healthy by taking Hood's Sarsaparilla. It cures scrofula, salt rheum, all blood disorders.

A Queer Bird.

Jim Radford, while frog hunting near the Harned pond, five miles east of the city Tuesday, came upon a peculiar bird, which he shot and captured. Those versed in "birdology" pronounced it a diminutive species of Bittern, a bird seldom seen in this climate. It is still alive and on exhibition at the Garner Drug Co's store.

MATRIMONIAL.

William Rives and Miss Mamie Arrington, both of Trenton, eloped to Coopers town, Tenn., Sunday last, and were married. Parental objections caused the elopement. The bride is the oldest daughter of J. W. Arrington, a prosperous merchant of Trenton, and the youthful groom has been in business for several years in the capacity of clerk for Silas Bennett.

Mr. Herman Marcus and Miss Mattie Cohen will be married next Tuesday evening at the residence of the bride's parents on North Main.

Mr. W. M. Girard left yesterday for Nashville with matrimonial intentions. Particulars were kept a profound secret.

Buckner Leavell, the druggist, desires us to publish the following testimonial, as he handles the remedy and believes it to be reliable.

At the time I bought the Pain Balm I was unable to walk. I can truthfully say that Pain Balm has completely cured me. R. H. FARR, Hollywood, Ky. Mr. A. B.
